Terms

[Azure Marketplace Terms](#) | [Azure Marketplace](#)

By clicking "Create," I (a) agree to the applicable legal terms associated with the offering; (b) authorize Microsoft to charge or bill my current payment method for the fees associated the offering(s), including applicable taxes, with the same billing frequency as my Azure subscription, until I discontinue use of the offering(s); and (c) agree that, if the deployment involves 3rd party offerings, Microsoft may share my contact information and other details of such deployment with the publisher of that offering.

Microsoft assumes no responsibility for any actions performed by third-party templates and does not provide rights for third-party products or services. See the [Azure Marketplace Terms](#) for additional terms.

Deploying this template will create one or more Azure resources or Marketplace offerings. You acknowledge that you are responsible for reviewing the applicable pricing and legal terms associated with all resources and offerings deployed as part of this template. Prices and associated legal terms for any Marketplace offerings can be found in the [Azure Marketplace](#); both are subject to change at any time prior to deployment.

Neither subscription credits nor monetary commitment funds may be used to purchase non-Microsoft offerings. These purchases are billed separately.

If any Microsoft products are included in a Marketplace offering (e.g. Windows Server or SQL Server), such products are licensed by Microsoft and not by any third party.

System assigned User assigned

A system assigned managed identity is restricted to one per resource and is tied to the lifecycle of this resource. You can grant permissions to the managed identity by using Azure role-based access control (Azure RBAC). The managed identity is authenticated with Microsoft Entra ID, so you don't have to store any credentials in code.

Save Discard Refresh Got feedback?

Off On

Object (principal) ID ⓘ

Permissions ⓘ

Azure role assignments

i This resource is registered with Microsoft Entra ID. The managed identity can be configured to allow access to other resources. Be careful when making changes to the access settings for the managed identity because it can result in failures. [Learn more](#)

Nu finder du din Fabric kapacitet. Den kan findes under "Resource groups".

Når du har fundet din Fabric, går du ind på "Access control (IAM)" under menuen i venstre side.

The screenshot displays the Microsoft Azure portal interface. At the top, the header shows the Microsoft Azure logo and a search bar. The breadcrumb navigation indicates the path: Home > Resource groups > [Resource Group Name]. The main content area is titled 'fabric' and 'Fabric Capacity'. On the left, a navigation menu lists various options, with 'Access control (IAM)' highlighted by a blue arrow. The right side of the page shows the 'Essentials' section, which includes details for the resource group: Resource group (move), Status (Paused), Location (West Europe), Subscription (move), Subscription ID, and Tags (edit). A 'JSON View' link is visible in the top right corner.

The screenshot shows the Microsoft Azure portal interface. At the top, the header includes the Microsoft Azure logo, a search bar, and the user's email address (jtl@atlytix.dk). The main navigation pane on the left lists various options: Overview, Activity log, Access control (IAM) (highlighted), Tags, Diagnose and solve problems, Resource visualizer, Scale, Settings, Quick Start, Capacity administrators, Properties, Locks, Monitoring, Automation, and Help. The main content area displays the 'Access control (IAM)' page for a resource group. A blue arrow points to the 'Add' button in the top navigation bar, which has a dropdown menu showing 'Add role assignment'. Below this, the 'Check access' button is highlighted. The page also features sections for 'My access', 'Check access', 'Grant access to this resource', 'View access to this resource', and 'View deny assignments'.
